Thank you! There was certainly some stress, but it was a lot of fun in the end and everyone seemed to really enjoy the day.

And that does sound like a great, and likely complicated project! Give a holler when you need to come up for air. Hope the late summer weather down in RTP is as nice as it has been the last several days up the Atlantic coast. Great time of year to be out here (although also a great time to be in Colo)!

-Hans

I'm in RTP – trying to stay under the radar screen whilst pushing the envelope on oil & gas emission inventories focusing on the Uinta Basin – pretty neat stuff which I'd love to bounce off you.

CONGRATULATIONS on [REDACTED] – glad it all went well and was more fun than stress!

There are always more gushers to be found!

Also, should've mentioned last week that [REDACTED] are indeed in smooth sailing mode – they're done! We got [REDACTED] planning mode.

I see you are out of the office, so hope you had a week and went somewhere fun!

That sounds like an interesting project and something that needs to be addressed. You can always give a call if you want to chat about anything, but I'm not sure I'd be of much help.

I was also working late on Tuesday when I sent you that note after getting ready for yesterday's inspection, which turned out to be pretty eventful. Attached is a sample of one gasoline tank (3.1 million gallons) we found with copious amounts of emissions venting, definitely not the only one. I think we looked at close to 45 tanks in one day at this massive gasoline distribution terminal. NJ has great SIP rules thankfully!

I look forward to the next happy hour with Bernie and Elton to hear the song! And also get your closing thoughts on the initiative. I'd wager you have a few!

Have a good weekend!

I'd talk your bloody head off if we were face-to-face with beer in hand. Working late inputting oilfield wastewater sampling data (from 114) – data's all over the place. If you were still around the corner I'd be looking for your thoughts.

 plans are smooth sailing and the wind's at your backs.

P.S. Lyrics by Alex "Bernie" North and Cindy "Elton" Beeler. It wouldn't take much more than one beer to get us to sing our talent show song next we meet!

Hi Cindy! Bummed I will be missing the talent show due to an inflexible inspection I will be doing at a large gasoline terminal in the nyc metro area tomorrow. I'm there in spirit!

In my mind, you were the main reason this initiative was so successful and achieved so much. You did amazing work from the get go and the dedication was to get it up and running was so critical. Cheers to you!!

(let's catch up soon)

NSPS OOOO/OOOOa Implementation Workgroup -

Creativity is limitless! Recite a poem, show cool photos, review a podcast, tell a joke ...

R8 will be singing their own lyrics to the well-known tune, "Always Something There To Remind Me".

Come one, come all - let's have some fun as we conclude our oil & gas CAA national enforcement initiative and the ATW Technical Workgroup meetings held since 2011!

See Ms. Mia's instructions below as she puts together an agenda program for this Wednesday's, 9am (MT) final ATW meeting.

Our apologies if you've received twice (means you're very special).

Reminder: Talent Show and photo upload - folder

Pls email me the title of your performance, and the amount of time you need to conduct said masterpiece.

My performance is the soon to be a hit classic rock song – “You Can’t Hide Your Fracking Gas.” I will be accompanied by the uber-talented David Meredith of OC, who will play guitar and provide harmony.

Pls plan to join VIA video SKYPE. If you choose to use the audio on SKYPE do not also call in. Remember to keep your microphone on mute when you are not performing. I will remind everyone when we start.

Cindy Beeler, pls forward to the NSPS OOOOa group.

Subject: FW: LAST Monthly National O&G ATW Call - Talent Show!

Reminder! No talent too small! I am sharing a folder to upload photos. Thanks!

Unlock that creative energy inside and share with our group of 8+ years! Our last meeting will be Wed, Sep. 11 at 11am (ET).

So far we have the Marvelous Marcia Mia working on a little ditty; Region 8 working on a song; perhaps Mr. Vyas will recite an uplifting poem; we may see some slides from Natalie Topinka's Greenland/Iceland holiday (which she's currently on!)

No rules – only fun!

Also, if you have photos to share send them to Marcia or me and we'll have a fun look-back.
